## CODING SAMPLES 🐙

Complete list and description of my deployed projects:  
[jsuastech.netlify.app/#projects](https://jsuastech.netlify.app/#projects)

### Amlo Dice

[www.amlodice.vercel.app](https://www.amlodice.vercel.app)

This React App is a tool for research in political discourse analysis. It allows to find phrases or words in a database of more than 2400 official speeches of the office of the Mexican president. **Made with React, PostgreSQL, ChartJS and Prisma.**

### Artist Connection

[artist-connection.netlify.app](https://artist-connection.netlify.app)

This site simulates a social network that allows you to directly contact local artists and book them. In addition to geolocation, it incorporates a chat with real-time interaction. **Made with: React, MongoDB, Express, Socket.io**

### The Points System

[the-points-system.netlify.app](https://the-points-system.netlify.app)

The Points System rates people's performance in their romantic relationships. It is not the most scientific system in the world, but it is a lot of fun. Welcome to give it a try. **Made with Next.js, TypeScript, CryptoJs, ReCharts**

### Bibliotopía

[www.bibliotopia.net](https://www.bibliotopia.net)

In 2021 I created Bibliotopía, an independent publisher specializing in social science and philosophy books. I created this website to show the catalog, the details of each book and the purchase and download options.

## WORK EXPERIENCE

Founder | Translator | Editor

2021 - today

### Bibliotopía

Independent publishing house focused on releasing high-level academic books in philosophy and social sciences. Bibliotopía has published works by university professors from various countries around the world.
